

**Pandemic - On the Brink**

You and a team of researchers attempt to save the world from the outbreak of pandemic diseases.

**Tournament / Regular Game:**

Tournament Game

**Player Experience:**

A brief walkthrough of the game will be provided. This walkthrough will emphasize the changes introduced by the variant played. Players are encouraged to play Pandemic prior to the con, but need not have played the particular variant being played. Additional Roles and special cards will be used

**Variant:**

Pandemic will be played using the on the brink supplement. The first game will be played normally with 4 epidemics. The second will be the virulent strain challenge, The third will be the mutation challenge. If more challenges are required, then another epidemic is added and we do the sequence again.

**Tournament Structure:**

Pandemic will be played as teams of four with successive games having higher and higher difficulty. The team that successfully completes the highest level of difficulty will be declared the winner. There will be one restart allowed. Players are encouraged to play as a team. Any player seen to be playing a solo game will be judged to be suffering from strep throat and will only be able to provide one word answers to questions for the remainder of that round. The judge will ask the other team members if they think the offending player has strep throat, the ruling of the rest of the team will stand. Team members are encouraged to bring solo play to the attention of the judge.
