

Tichu

Tichu is one of the clubs most popular games! Tichu is a partnership climbing game where crafty play and precise timing, along with a little luck, determines the winner! Players play combinations of cards (similar to poker hands) and try to be the first to get rid of all their cards. The cards led determine the combination that can be played on that trick. Players may pass or play, but the last player to play leads the next trick! Try your luck at this popular game!

Tournament / Regular Game:

Tournament Game

Player Experience:

No experience required. A brief introduction to the game will be provided, but it is suggested the players have experience with trick taking and partnership games.

Variant:

Basic Game. Card passing will be face down, partners will be randomly determined in the first round, and matched based on scoring in subsequent rounds (see Tournament Structure below)

Tournament Structure:

(highest with lowest, trying to prevent duplicates if possible). Similar scores will be partnered where possible.

Three one hour rounds, plus one hour for the final table of highest seeded players.
